2009 Awards of Excellence Entry Confirmation

YES, I want to enter into this year's Awards Program!

Like last year, in an effort to make the Awards of Excellence Entry process even easier for members, the Awards Committee has designed a special submission package template for each of the award categories. With this new approach, members will be notified of what they need to include in their packages and will be prompted to entry specific information and photos. Your LNS staff will be available to any member who would like some assistance in pulling their project(s) together (i.e., scanning photos, guidance on what to include and how to present some of the submission details.)

All you need to do today is let us know which categories you would like to enter into. You also need to begin to take some photographs of your projects – so put your camera in your vehicle! Once we receive this form we will forward your project package by email and will help direct you through the application process.

ENTRY CONFIRMATION SUBMITTED BY:

Company: _____
Name: _____
Address: _____
City: _____ Postal Code: _____ Phone#: _____

Categories

Please check all categories you will be entering and remember only one entry per company per dollar category.
